 - Kubernetes,
 - Azure Storage Services
 - Azure App Registration
 - Office 365 Login, OAuth
 - Azure Functions
 - Azure Queue/Table
 - Azure Servicebus messaging
- Google Cloud (Storage Services)

FRONTEND DEVELOPMENT

- Angular 8+
- CSS/LESS
- HTML/Typescript/Javascript

WORK EXPERIENCES

2019 Jan - Present

SOFTWARE ARCHITECT • ENERJISA URETIM, SABANCI HOLDING

Within Enerjisa Uretim, we develop internal corporate applications that are being used in our powerplants all over Turkey.

We apply Agile principles. Unit test and UI testing is so much important for us in order to ensure high quality of our projects. They have to be working 7/24 since we have many integrations with TEIAS, which is the market manager of Electricity distribution in Turkey.

Responsibilities:

- Running sprints of 2 weeks as a team member
- Technical analysis, technical concerns & feature implementation
- Monitoring production systems
- Developing .netcore/angular applications, backend unit testing
- Integrating third party services
- Robots with Puppeteer
- Software quality ensured with Sonarqube and code-reviews
- Helping and leading other team members as a Software Architect
- Analysing performance issues bottlenecks
- Releasing nuget packages globally (I am in love with open-sourcing)

Dec 2016 - Jan 2019

LEAD DEVELOPER • VEKTORA CONSULTANCY

I have been working as a Lead Consultant (formerly, as Senior Consultant) in Vektora, within the department of Microsoft. We are implementing huge integrations, internal and external web application according to our customer needs. As consultants, we are 7/24 reachable due to the fact that we are responsible of huge external systems like: Vestel.com.tr, Regal-tr.com, Garenta.com.tr and so on.

I am also responsible about Framework Development within the company, which is being distributed among most of our projects.

Tech Stack: soa architecture, wcf/asmx, webforms, mvc, .netcore, ef, ninject, svn/git, ms sql, heroku, jquery, and many front-end technologies.

Dec 2016 - Jan 2019

FULL-STACK DEVELOPER • HOSTAMEDIA WEB AGENCY

Hostamedia could be counted as my first professional software experience; I started there as junior developer, worked for almost 4 years (with a 6 month break due to military services).

The company is so popular within the Hotel Websites sector of the web agencies; they got strong references like The Marmara Hotels, The House Hotels, Avantgarde Group and so on.

We were mostly doing back-end integrations to their prebuilt CMS systems. After some time, I started developing plugins for the CMS systems and contrib part of the company Framework.

Technologies being used: .Net ASPX Webforms, LLBLGEN (instead of Entity Framework), .net 3.5, svn, ms sql, jquery and many other front-end technologies.

EDUCATION

Boğaziçi Üniversitesi (Bosphorus University), Management Information Systems, 2012
